

Richard Kruger: Field Director & Lighting DP cameraman

CV: Publicity SFU-EPK/BTS Experience & References

Own Camera kits, sound and lighting packages

I have been working on film sets doing EPK/BTS work since 2005

Drawing on my documentary filmmaking background and utilising my experience of onset etiquette has provided me the opportunity to work with some of the most inspiring filmmakers and actors to produce quality EPK/BTS material for the publicity of both Feature Films and Series

I was privileged to work on Mad Max – Fury Road for 6 months in Namibia where on a daily bases I was able to capture the unique filmmaking of George Miller and all the amazing work by the creative departments. Most of all the publicity material and special features are from my material capture over this period.

Below are some of the films and series I have worked on through the years as well as some work references and then at the end online links to visual pieces of my work.

Work References:

The footage is fantastic and really gave great insight into what we're about to jump into. I REALLY appreciate the beauty and artistry in the shots. I also can't tell you how much I appreciate the interviews and the dedication to the project. I think that this material will be perfect to illustrate the pre-production process for that portion of the movie.

Brett Levisohn, Vice President, Trailer Park, LA - The Mummy

The material looks great. Thanks for all your hard work, and it was a great little crew in general. It made my visit feel a lot easier; I knew I was in good hands.

Julie Ng, Bandersnatch Pictures, EPK Producer - The Empty Man

I'm greatly pleased with your efforts! Just wanted to thank you again for all your flexibility, hard work, and your keen eye. I appreciate it, Richard. I shall certainly recommend you to any colleague I come across who are looking to shoot in your neck of the woods.

Jonathan Strailey, New Wave Entertainment, LA - Mad Max – Fury Road

You guys are/were an absolute pleasure to work with. Your dedication and commitment - and good humor - on the project can't be acknowledged enough. Thank you, thank you, thank you for all. I hope we get the chance to work together on something else in the not too distant future. In the meantime, wishing you both the very best of everything in your future endeavors.

Guy Adan, Production Publicist - Safe House

Working with Richred Productions on a behind-the-scenes (EPK/DVD) project for a major motion picture was not only one of the most successful experiences of my career; it was also one of the most enjoyable. Richard's knowledge, skill, drive and overall personality are unmatched... and the quality of his work made me look good! I cannot wait to work with him and his team again.

Brett Levisohn, Director, Brand New Bag Entertainment, LA - Safe House

"Richard Kruger is a true professional. Whenever we shoot in the region, Richard is the ONLY cameraman we use."

Chris Miller, President, Element Media, Hollywood

We hired Richard to shoot the EPK footage for the Daniel Craig movie Flashbacks Of A Fool, as is always the case with this type of filming we need a crew that is sensitive and discreet around the filmmakers but also resourceful and adaptable to get the shots we need. Needless to say I'm looking forward to working with Richard and his team again, he was also a terrific host and made me very welcome during my stay in Cape Town.

Rob Done, Producer, Magnetic Eye Films, UK - Flashback of a Fool
